

# Intelligent Automation

## WHY INTELLIGENT AUTOMATION?

Increase performance and enhance employee creativity with intelligent automation. Automate data extraction and classification despite complexities.

With IBA Group, Intelligent Automation will allow your organization to

- Boost productivity
- Make intelligent decisions
- Focus on tasks that add value
- Improve customer and employee experience.

**We cover the entire automation cycle.** Our Intelligent Automation teams include solutions architects, ML engineers, SPA developers, data analysts, DevOps engineers, and project managers.

## WHAT IS INTELLIGENT AUTOMATION?

Intelligent Automation from IBA Group empowers you to orchestrate users, tasks, systems, and robots than align with business needs. Intelligent Automation systems from IBA Group **learn from data, identify patterns, and make smart decisions.**

## IMPROVE EFFICIENCIES, OUTCOMES, AND EXPERIENCES

- Asses project feasibility
- Develop solution architecture
- Create robots and activate ML algorithms
- Integrate and deploy a smart automation platform
- Train and support your team
- Help set up your own Center of Excellence
